Preliminary Programme

SIS WORLD CONGRESS ON BREAST CANCER AND BREAST HEALTHCARE

MAY 3-6, 2023 | RHODES ISLAND - GREECE INTERNATIONAL CONFERENCE CENTER - RODOS PALACE

WELCOME ADDRESS

Dear Colleagues,

It is with great pleasure that, we are inviting you to the **21st SIS World Congress on Breast Cancer and Breast Healthcare**, which will take place in **Rhodes Island – Greece on May 3–6 2023**, at the Rodos Palace International Conference Center. The Congress will be realized exclusively with on site participation.

The Congress is under the Patronage of the H.E. the President of the Hellenic Republic Ms. Katerina Sakellariopoulou and His All Holiness the Ecumenical Patriarch Mr Vartholomeos 1st.

The core framework of the Congress will be the Scientific Program, which has been developed by a dedicated Scientific Committee.

The 21st SIS World Congress in Rhodes Island will help all attending delegates and participants to advance their knowledge and navigate the complex world of today's most effective initiatives and best practices across the full spectrum of Breast Cancer and Breast Healthcare. Healthcare should not be seen as an expense, but as an investment.

The Congress will deal with the latest and most recent scientific results both in in the diagnostic and therapeutic quiver of breast diseases and especially in the treatment of Breast Cancer. It's the first time that a SIS Congress deals with Breast Healthcare.

After three years of continuous postponements the Congress is finally taking place live with recognised Lecturers from all over the world. It is a great opportunity for exchanging views between specialised physicians and for younger participants to learn from the more experienced ones.

We would like to thank you in advance for your excellent collaboration.

Best wishes,

Pr Lydia Ioannidou-Mouzaka MD, PhD
President of the Congress

Pr Schlomo Schneebaum MD, PhD
President of the Scientific Committee
